

How to make a Mini Comic Book

This 8-page book is created from a single page of copy paper. Kids can create stories in a mini-format then scan and publish their books to share with others!

Step 1:

Print out the activity files below (pages 3-6)

Step 2:

Use the example books to practice folding (paper and video instructions provided.)

Step 3:

Draw your own comic in the blank template!

Step 4:

Scan your completed comic onto a computer or make copies on a copier.

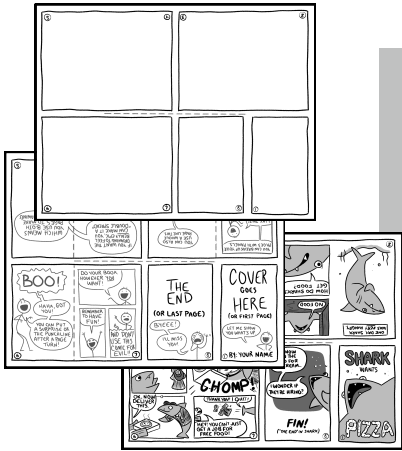

Step 5:

Once you have copies of your page, fold them all up.

Step 6:

Now you're published! Hand out copies of your books to friends (or charge for them and get rich!)

What You'll Need:

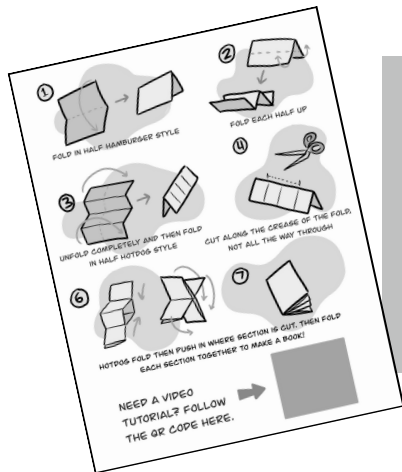

Print out the blank mini book template and 2 example books. One example book shows kids HOW to make a book. The other is a silly shark story for kicks and giggles.

Art supplies including: Scissors, pencil, eraser and ink or coloring tools of your choice.

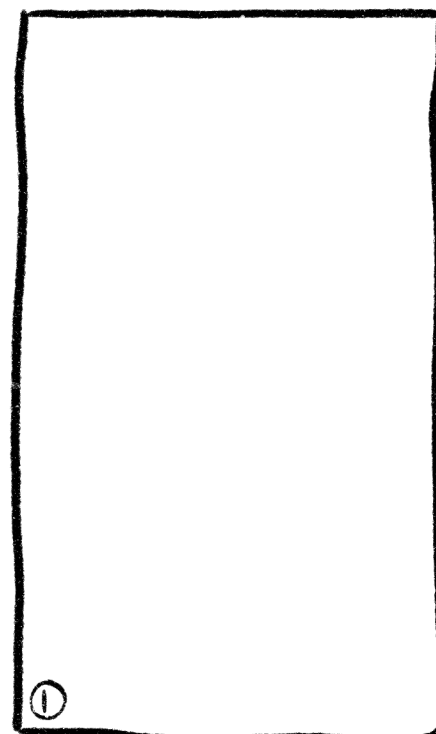

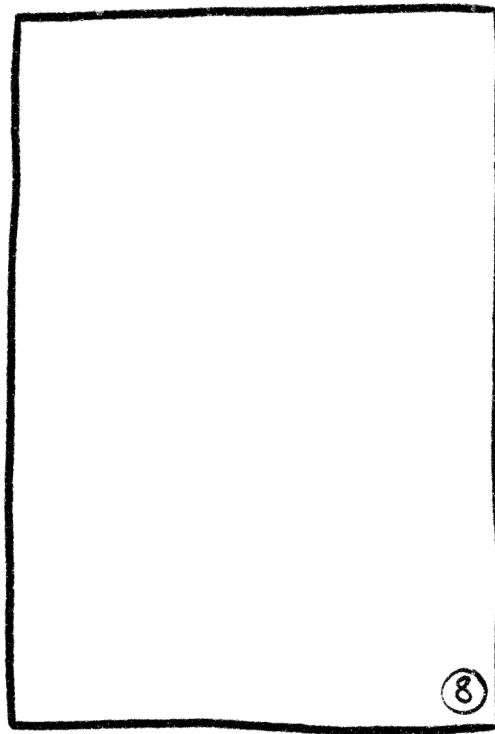

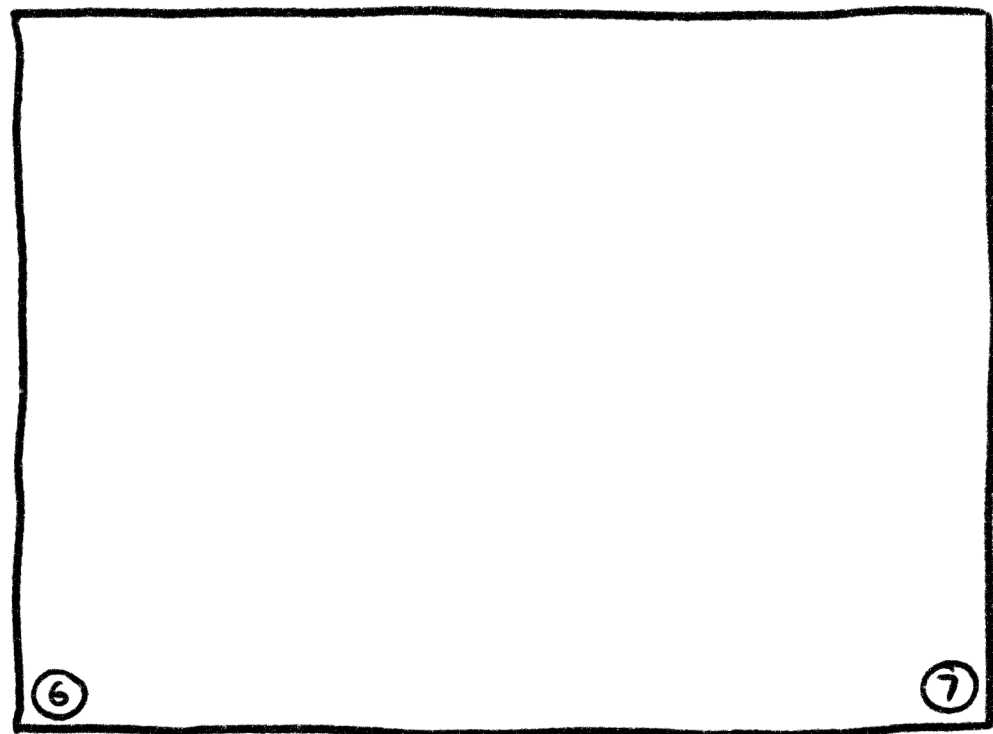

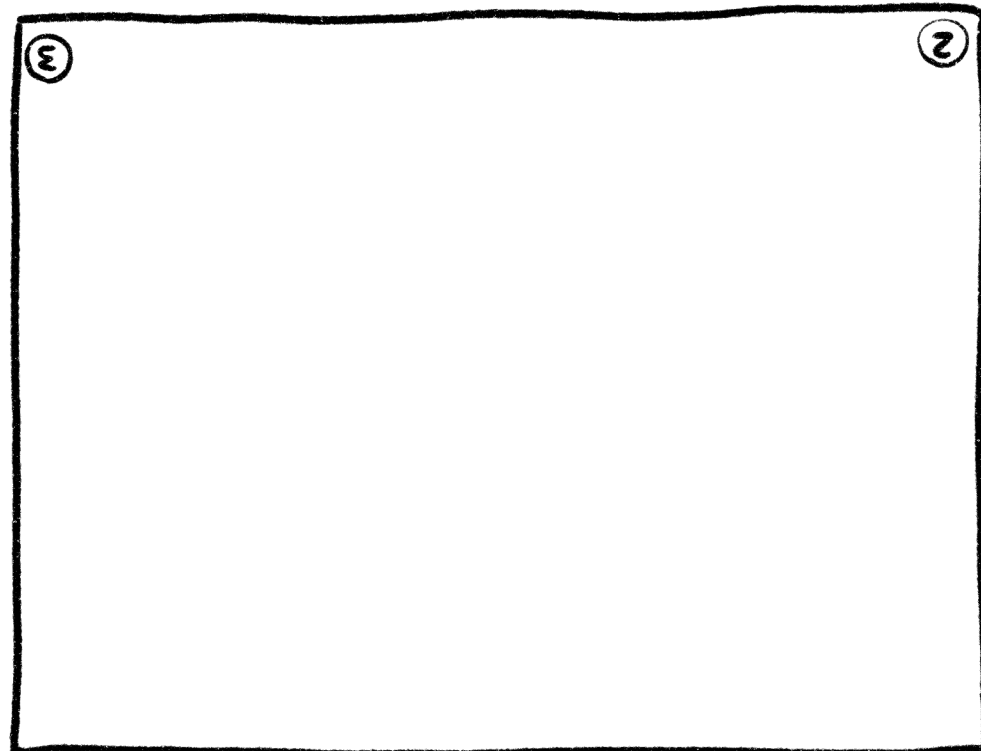

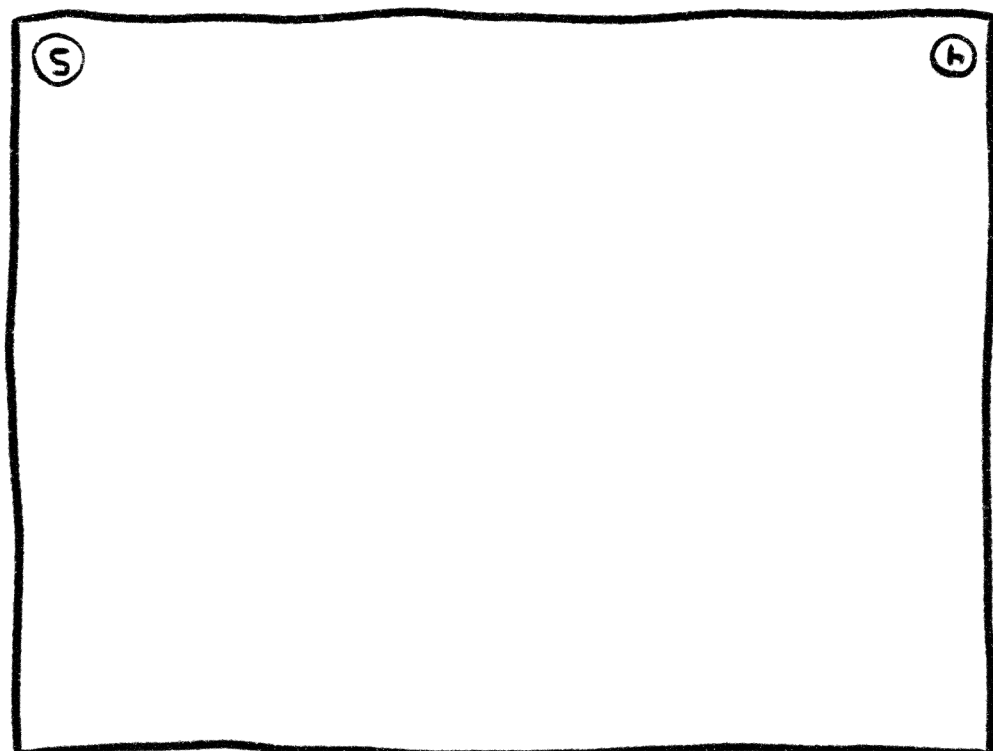

You can print out the folding instructions or use them from your device. There is also a QR code linked to a video with step-by-step folding instructions.

FOLD IN HALF HAMBURGER STYLE

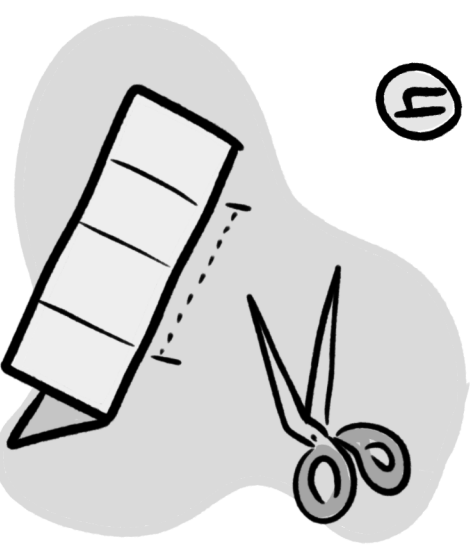

FOLD EACH HALF UP

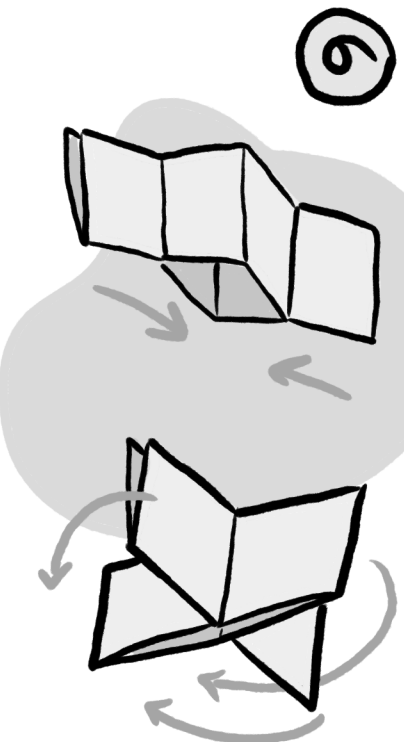

UNFOLD COMPLETELY AND THEN FOLD

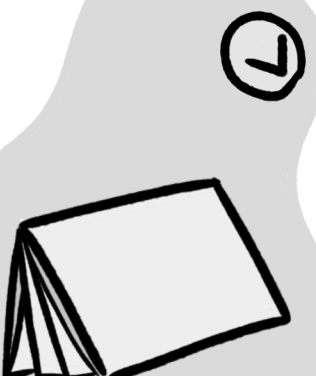

IN HALF HOTDOG STYLE

CUT ALONG THE CREASE OF THE FOLD,
NOT ALL THE WAY THROUGH

HOTDOG FOLD THEN PUSH IN WHERE SECTION IS CUT. THEN FOLD
EACH SECTION TOGETHER TO MAKE A BOOK!
